**1. Call to Order**

Stephanie Gaines (County of San Diego) called the meeting to order at 1:31 PM.

6 Due to restrictions for mitigating the spread of COVID-19, all meetings are being done  
7 online and remotely.

8 **2. Roll Call**

9 Stephanie Gaines (County of San Diego) completed roll call for voting members. Other  
10 persons participating in the meeting were asked to identify themselves through the chat  
11 function to be included on the attendance list.

12 **3. Time for Public to Speak on Items Not on the Agenda**

13 No comments from members of the public.

14 **4. Meeting Summary \*Vote\***

15 The Copermittees had no comments or revisions to the June 18, 2020, Program Planning  
16 Subcommittee (PPS) meeting notes.

17 **MOTION: Approve the meeting summary for June 18, 2020, as written. (APPROVED)**

- 18 • Moved by: Wbaldo Arellano (Tijuana Watershed, City of Imperial Beach)
- 19 • Seconded by: Bri Martin (Santa Margarita Watershed, County of San Diego)
- 20 • Vote: 9-0-0-0

21 **5. Old Business**

22 Stephanie Gaines (County of San Diego) reviewed the action items from the previous  
23 meeting. Each action item is listed here in *italics* with the update below it.

24 1. *Copermittees to email Stephanie Gaines (County of San Diego) and Bri Martin (County*  
25 *of San Diego) with comments on the Receiving Water Regression Analysis for*  
26 *forwarding to Andrea Crumpacker (Weston).*

27 Completed.

28 2. *Paul Hartman (LWA) to send Stephanie Gaines (County of San Diego) final draft*  
29 *language for WQIPs regarding responsiveness to sources not equaling responsibility*  
30 *for those sources. Stephanie Gaines (County of San Diego) to forward it to the*  
31 *Copermittees.*

32 Completed.

33 3. *Copermittees to notify Stephanie Gaines (County of San Diego) of interest on*  
34 *participating in an ad hoc subcommittee to address the C-value issue.*

35 Completed.

36 4. *Copermittees to notify Stephanie Gaines (County of San Diego) and Bri Martin (County*  
37 *of San Diego) if they want the July PPS agenda to include discussion of the Regional*  
38 *Board clarification on the Ag Order update and assessment issues.*

39 Completed.

40 5. *At least one week prior to PPS meetings (preferably sooner), Copermittees to notify*  
41 *Stephanie Gaines (County of San Diego) and Bri Martin (County of San Diego) of any*  
42 *PPS agenda suggestions or ideas on presentations for work products, work plans, etc.,*  
43 *to further collaboration among the Copermittees.*

44 This is a regular standing item on future agendas and will remain as an ongoing action  
45 item.

46 6. *Stephanie Gaines (County of San Diego) to email Copermittees again the WQIP letters*  
47 *table developed by LWA for the WQIP Ad Hoc Subcommittee.*

48 Completed.

49 7. *Copermittees to notify Stephanie Gaines (County of San Diego) if interested in having*  
50 *a conversation about hosting Project Clean Water when the current contract runs out.*

51 Due by July 16, 2020.

52 8. *Copermittees to notify Stephanie Gaines (County of San Diego) if they are able to use*  
53 *Microsoft Teams for future meetings.*

54 Due by July 31, 2020.

55 9. *Stephanie Gaines (County of San Diego) to email the Trash Amendments Track 2*  
56 *Guidance Document to Copermittees.*

57 CASQA is still developing this. This will remain as an ongoing action item.

58 10. *Copermittees interested in participating on ad hoc subcommittee to discuss BMP*  
59 *Performance (as related to vegetative cover, mulch, and maintenance) to notify René*  
60 *Vidales (County of San Diego).*

61 Due by end of July 2020.

62 11. *Stephanie Gaines (County of San Diego) to keep Copermittees updated on progress of*  
63 *request for reporting relief from the Regional Board.*

64 This is an ongoing action item.

65 12. *Copermittees wanting to pick up promotional items are to contact Chelsea*  
66 *McGimpsey (County of San Diego) to arrange a date and time for pickup.*

67 This is an ongoing action item.

68 13. *Add to PPS agenda – notify at least 1 week in advance of meeting.*

69 This is an ongoing action item.

70 **6. Budget Update**

71 **Vote on FY20-21 Marketing Campaign Budget Carry Forward**

72 This is a vote to carry forward \$170,441.25 of the FY19-20 Task 3D Marketing Campaign  
73 budget to the FY20-21 Task 3D Marketing Campaign budget, for a total FY20-21 budget  
74 of \$370,441.25.

75 No Copermittees had comments or questions on the item.

76 **MOTION: Carry forward \$170,441.25 of the FY19-20 Task 3D Marketing Campaign**  
77 **budget to the FY20-21 Task 3D Marketing Campaign budget, for a total FY20-21 budget**  
78 **of \$370,441.25. (APPROVED)**

- 79 • Moved by: Cecilia Tipton (San Diego River Watershed, City of Santee)
- 80 • Seconded by: Alicia Appel (San Dieguito Watershed, City of Escondido)
- 81 • Vote: 9-0-0-0

82 **A. FY 21-22 Budget Development & Updates**

83 Stephanie Gaines (County of San Diego) reminded the Subcommittee budgets are  
84 typically reconciled at this time of the year. Draft workplans and budgets, including the  
85 Land Development Workgroup, Program Planning Subcommittee, and Education and  
86 Outreach Workgroup, for the following fiscal year are discussed by PPS in September.  
87 Copermittees take the proposed budgets and workplans to their jurisdictions for  
88 consideration, hold a formal vote at the October PPS meeting to recommend the budget  
89 to the Regional Management Committee (RMC), and the RMC holds their official vote in  
90 December. In the past, invoicing was done in January for the upcoming fiscal year. This  
91 year, the County is working to invoice sooner.

92 **7. CASQA and NMSA Updates**

93 Scott Taylor provided an update. He works for Michael Baker International and is a  
94 representative of both the California Stormwater Quality Association (CASQA) and the  
95 National Municipal Stormwater Alliance (NMSA).

96 **CASQA**

97 Scott Taylor (CASQA) serves on the CASQA Membership Committee and provided the  
98 Annual CASQA Update.

99 CASQA membership is 46 percent regular members (i.e., those with NPDES permits) and  
100 54 percent affiliate members (i.e., those who do not hold a stormwater permit). CASQA's  
101 collective voice represents about 26 million people in California covered by NPDES  
102 permits. The San Diego Copermittees are CASQA members.

103 CASQA performs work through many established committees. Members can join  
104 committee calls and/or assist with work products. Interested members are to contact  
105 committee chairpersons directly to initiate involvement.

106 Scott Taylor (CASQA) reviewed CASQA's 2019 priorities and accomplishments, including  
107 water quality priorities, the statewide bacteria effort, biointegrity/biostimulatory  
108 objectives, stormwater funding, Phase II permit renewal, zinc in tires, and the Urban  
109 Pesticide Amendments.

110 CASQA has established the Strategic Plan and Organizational Goals, showing how CASQA  
111 will operate as an organization. The long-term technical roadmap for CASQA is in their  
112 Vision for Sustainable Stormwater Management.

113 With regard to national coordination, CASQA leadership went to Washington, D.C., to  
114 meet with Congress, NACO, and EPA and educate legislators on the needs of stormwater  
115 programs. CASQA is member of NMSA and participated in the continued development of  
116 a national green infrastructure certification program, which aims to provide structure and  
117 certification to inspections of stormwater treatment BMPs both during and after  
118 construction. CASQA is working to bring this national program to California.

119 CASQA's statewide efforts include STORMS (the California Water Boards' stormwater  
120 strategy), the California Stormwater Authority (a joint powers authority [JPA] for  
121 implementing research and facilitating the transfer of funding from the State of California  
122 to research projects), an MS4/POTW workshop to facilitate diversion of stormwater to  
123 wastewater treatment plants, and continued involvement with regulatory initiatives. The  
124 regulatory initiatives include biological objectives (San Diego Regional Board),  
125 biostimulatory and biological integrity amendments, California's water resilience  
126 portfolio, Ocean Plan review, Phase II MS4 Permit renewal, permit fees, pesticides  
127 regulations and re-evaluations, STORMS stormwater strategy and projects, stormwater  
128 cost estimation guidance and reporting, toxicity provisions, and the Waters of the U.S.  
129 rule.

130 In 2019, CASQA produced 13 comment letters, one testimony, two CASQA position  
131 papers, ten CASQA work products, one amended petition, one legal opinion publication  
132 request, and 15 podcast episodes. CASQA is working to expand virtual offerings of  
133 information to increase usefulness of CASQA to members.

134 The 15<sup>th</sup> Annual CASQA Conference was held October 2019 in Monterey. Over 1200  
135 participants attended, and it included seven workshops, 138  
136 presentations/panels/roundtables, 57 exhibitors, 31 posters, a field tour, the welcome  
137 event, a networking event, a plenary session/keynote, the inaugural conference  
138 scholarship program, and official launch of the CASQA podcast.

139 Looking forward, CASQA is promoting a new initiative: #CASQatogether. The initiative is  
140 an acknowledgement of the realities of COVID-19 and what we are doing along the line.  
141 As a virtual organization, CASQA is working to expand their virtual presence and provide  
142 additional virtual resources. Membership, which is the financial backbone of CASQA, is  
143 very important to maintain in these difficult times.

144 Scott Taylor (CASQA) described CASQA's organizational goals, as presented in the  
145 Strategic Plan. In 2020, CASQA's areas of focus from the Strategic Plan are to lead,  
146 support, and develop. To lead, CASQA will focus on revisions to CASQA's Vision for  
147 Stormwater and continue work on regulatory initiatives, Phase II permit renewal, and  
148 Construction General Permit (CGP) renewal. To support, CASQA will develop new training  
149 videos and update the BMP handbooks. To develop, CASQA will continue the conference  
150 scholarship program. CASQA is currently updating their 2020 Vision priorities, including

151 identifying priority levels and action plans. The mission critical projects for 2020 include  
152 the bacteria statewide effort, trash guidance, and the online POC reduction guidance  
153 manual (trash). Other important priorities include the petition to the Department of Toxic  
154 Substances Control (DTSC) on zinc in tires, communicating the value of stormwater to the  
155 public, biostimulatory/biointegrity tools to support policy options, and monitoring State  
156 Board progress. Regulatory initiatives for 2020 include toxicity, urban pesticides,  
157 biostimulatory/biointegrity, the Construction General Permit, Phase II permits, and  
158 Waters of the United States.

159 The 16<sup>th</sup> Annual CASQA Conference will be held through a virtual platform from  
160 September 14 to 16, 2020. It will be an interesting and engaging platform that will allow  
161 more interaction and more content. Registration is open now.

162 Scott Taylor (CASQA) concluded the CASQA update by highlighting the many resources  
163 available through casqa.org. CASQA can also be found on Twitter (CASQA\_org) and  
164 LinkedIn (CASQA).

165 **NMSA**

166 The National Municipal Stormwater Alliance (NMSA) is a 501(c)3 composed of  
167 organizations like CASQA. NMSA's goal is to have CASQA-like organizations in all 50 states  
168 and a unified voice through NMSA. Most recently, NMSA assisted with formation of the  
169 Alabama Stormwater Association.

170 For national messaging, NMSA is working on a national public outreach campaign with a  
171 common theme all stormwater programs can use to benefit and create better public  
172 awareness. NMSA is also supporting stormwater at decisionmaker levels, including the  
173 Water Resources Development Act and composing major legislative asks for Congress  
174 every year for Water Week.

175 For the ASCE Infrastructure Report Card, which is due to be released next year, NMSA has  
176 worked to introduce a stand-alone category for stormwater. This will elevate public  
177 awareness of the sector.

178 NMSA developed an online toolbox for MS4s that will be useful to Phase II permittees  
179 (<http://ms4resource.nationalstormwateralliance.org>), in response to a request from  
180 David Smith (Region 9) and work by TG Environmental. Others will benefit from its  
181 well-curated list of resources. The toolbox includes six major topic areas with modules  
182 and contemporary references.

183 NMSA is planning a small group exercise in stormwater capture for Racine, Wisconsin this  
184 November. The goal is to advance stormwater capture through expert convening. With  
185 the recent release of the EPA Water Reuse Action Plan, the small group expert convening  
186 is timely. The objectives are to make good use of water resources, specifically in urban  
187 areas for stormwater capture; hold a comprehensive discussion at a national level; and  
188 identify barriers, impediments, actions, and strategies. A report out from the expert  
189 convening is expecting early 2021.

190 The Chesapeake Bay Trust Grant Project received funding. This illustrates Community-  
191 Based Public-Private Partnership (CBP3) support. The project plans to have courses,  
192 certificates, and several valuable webinars. Follow on Twitter for announcements.

193 NMSA has achieved legislative success with America’s Water Infrastructure Act. The  
194 stormwater funding and financing task force has concluded, and the report is available  
195 from the EPA. It includes \$500K appropriated for the Clean Watershed Needs Survey.  
196 NMSA was successful in introducing language in the draft 2020 Transportation Bill  
197 facilitating State Departments of Transportation (DOTs) to work with MS4s, particularly  
198 on TMDLs. While current funding from DOTs is strictly limited to work within the right-of-  
199 way, the introduced language allows Federal highway trust funds to be used for work  
200 outside the DOT right-of-way for TMDL projects. The final 2020 Transportation Bill has  
201 not yet been passed.

202 Stephanie Gaines (County of San Diego) will email Copermittees the slides from Scott  
203 Taylor’s CASQA and NMSA updates.

204 **8. Subcommittee Updates**

205 ***Land Development Workgroup (LDW)***

206 René Vidales (County of San Diego) sent in an update. The LDW July 29 meeting will  
207 include voting on the meeting structure of their workgroup, voting on expenditures for  
208 the 4<sup>th</sup> quarter, and discussing the FY21-22 workplan. At the May 20 LDW meeting, LDW  
209 formed an ad hoc subcommittee to discuss BMP performance (as related to vegetative  
210 cover, mulch, and maintenance). The ad hoc subcommittee is co-chaired by the City of  
211 San Diego and City of Santee, with participating members from the County of San Diego,  
212 City of Encinitas, and City of Escondido.

213 ***Regional Monitoring Ad Hoc Subcommittee***

214 Pending Items: C-Value and Options for Future Support

215 At previous PPS meetings, Copermittees were asked about interest in participating on an  
216 ad hoc subcommittee to address the runoff coefficient calculation methodology (c-value).  
217 As of this meeting, Jo Ann Weber (County of San Diego) will participate in the ad hoc  
218 subcommittee and will have consultant support. Any other interested Copermittees are  
219 to notify Stephanie Gaines (County of San Diego) as soon as possible if they would also  
220 like to participate on this ad hoc subcommittee. The Regional Board wants a workshop  
221 with Copermittees on this issue to reach agreement on the methodology.

222 Responses for Adaptive Management Item 9.d., Surfer Health Study

223 This draft response document was e-mailed to Copermittees with other materials for  
224 today’s meeting. The document was prepared by Jo Ann Weber (County of San Diego),  
225 who was instrumental in the Surfer Health Study. The document has background  
226 information and two potential draft responses for consideration by watershed  
227 management areas to use in reporting. Copermittees who did not receive the document

228 are asked to contact Stephanie Gaines (County of San Diego) or Bri Martin (County of San  
229 Diego).

230 ***Project Clean Water Ad Hoc Subcommittee***

231 Chelsea McGimpsey (County of San Diego) informed the Copermittees that due to COVID-  
232 19 impacts, the County is pursuing activation of the one-year extension included in the  
233 existing contract. This will ensure continuity of services and allow completion of current  
234 tasks. The intent remains for management of ProjectCleanWater.org to transfer to a  
235 Copermittee after May 31, 2021. Copermittees are asked to contact the County if they  
236 are interested in taking on management of ProjectCleanWater.org. The County continues  
237 to follow up with Perspecta on a quote for website management. The Project Clean Water  
238 Ad Hoc Subcommittee will meet this Fall and expects to have more information from MIG  
239 on recommended website changes to support the behavior change marketing campaign.

240 ***Education and Outreach Workgroup***

241 The Education and Outreach Workgroup continues to move forward with the behavior  
242 change marketing campaign. The Tiger Team is working closely with the consultant (MIG)  
243 to build a comprehensive plan for the campaign. The Tiger Team reports to the  
244 Workgroup at each meeting. They have most recently been looking at metrics for tracking  
245 engagement and adoption of stormwater-friendly behaviors. The two main focus areas  
246 selected at this time are irrigation runoff and trash. Car washing will be included in  
247 irrigation runoff since some Copermittees emphasized car washing is important in their  
248 jurisdictions. The campaign will include SMART goals, setting of a baseline, and metrics to  
249 track adoption of targeted behaviors. MIG will be presenting more details at the next  
250 Workgroup meeting on August 5.

251 Copermittees wanting to pick up promotional items are to contact Chelsea McGimpsey  
252 (County of San Diego) to arrange a date and time for pickup.

253 ***WQIP Ad Hoc Subcommittee***

254 Regulatory Relief Discussion with Regional Board

255 Stephanie Gaines (County of San Diego) reported there is no official answer yet from the  
256 Regional Board. From conversing with Laurie Walsh (Regional Board), Copermittees may  
257 reduce the lengthy narrative discussions in their annual reports by using strategy tables  
258 to demonstrate how programs are being adaptively managed. No answers have been  
259 provided on other issues related to regulatory relief.

260 **9. WMA Updates**

261 This is an opportunity for watershed groups to provide updates or ask questions relevant  
262 to other watershed management areas (WMAs).

263 The Copermittees discussed how jurisdictions are addressing agricultural facilities. The  
264 City of San Diego, City of Escondido, and County of San Diego shared their responses,  
265 which varied. Alicia Appel (City of Escondido) mentioned they expect there will be a need

266 to train inspectors for the addition of agricultural facilities to their commercial inspection  
267 inventory. The Copermittees discussed possibly coordinating with the San Diego Farm  
268 Bureau to partner on stormwater training for agricultural operations. Justin Gamble (City  
269 of Oceanside) and Tim Murphy (City of Carlsbad) voiced interest in having their inspectors  
270 participate. Stephanie Gaines (County of San Diego) will work offline with Copermittees  
271 regarding development of a stormwater workshop for inspectors and Copermittees,  
272 focused on stormwater inspection of agriculture facilities.

273 **10. Announcements / Other**

274 Christine Tolchin (County of San Diego) mentioned Copermittees had previously discussed  
275 holding refresher QISP training. With the COVID-19 response, an in-person training has  
276 been taken off the schedule indefinitely. Speakers and topics are lined up, but the County  
277 does not have plans to organize a virtual event at this time. Any Copermittee interested  
278 in leading a virtual event for QISP training is asked to contact Christine Tolchin (County of  
279 San Diego).

280 Stephanie Bauer (Port of San Diego) asked if any Copermittees are working on a comment  
281 letter for the Nonpoint Source Plan from the State Board. Matt Yeager (RCFCWCD)  
282 indicated their Watershed Protection Division will be submitting a comment letter. He will  
283 confirm he has permission to share their response letter with all Copermittees. Stephanie  
284 Gaines (County of San Diego) will send the letter to Copermittees once confirmed by Matt  
285 Yeager (RCFCWCD). CASQA is not expected to provide a comment letter. Cecilia Tipton  
286 (City of Santee) recommended jurisdictions pay attention to the discussion of homeless  
287 encampments in the plan. Comment letters are due by July 31, so a regionally coordinated  
288 response will not be pursued.

289 **11. Future Meetings**

290 The next Land Development Workgroup meeting is Wednesday, July 29 from 9 AM to  
291 11:30 AM.

292 The next Education and Outreach Workgroup meeting is Wednesday, August 5 from  
293 10 AM to noon.

294 The next PPS meeting is scheduled for August 20 from 1:30 to 3:30 PM. Copermittees are  
295 asked to provide agenda topics well in advance of the meeting, not later than close of  
296 business on August 13 (one week before the meeting).

297 Stephanie Gaines (County of San Diego) adjourned the meeting at 2:49 PM.

298 **ACTION ITEMS**

#	Action	Responsible Party(ies)	Due Date
1	Matt Yeager (RCFCWCD) to confirm permission to share Riverside’s response letter with all Copermittees. Stephanie Gaines (County of San Diego) to send letter to Copermittees once confirmed by Matt Yeager (RCFCWCD).	Matt Yeager (RCFCWCD); Stephanie Gaines (County of San Diego)	ASAP
2	Copermittees to notify Stephanie Gaines (County of San Diego) if they are able to use Microsoft Teams for future meetings.	All Copermittees	7/31/2020
3	Copermittees interested in participating on ad hoc subcommittee to discuss BMP Performance (as related to vegetative cover, mulch, and maintenance) to notify René Vidales (County of San Diego).	Interested Copermittees	End of July
4	At least one week prior to PPS meetings (preferably sooner), Copermittees to notify Stephanie Gaines (County of San Diego) and Bri Martin (County of San Diego) of any PPS agenda suggestions or ideas on presentations for work products, work plans, etc., to further collaboration among the Copermittees.	All Copermittees	8/13/2020
5	Stephanie Gaines (County of San Diego) to send Copermittees the slides from Scott Taylor’s CASQA and NMSA updates.	Stephanie Gaines (County of San Diego)	8/20/2020
6	Copermittees who did not receive the Responses for Adaptive Management Item 9.d., Surfer Health Study, to notify Stephanie Gaines or Bri Martin (County of San Diego).	All Copermittees	8/20/2020
7	Copermittees to notify Stephanie Gaines (County of San Diego) if interested in having conversation about hosting Project Clean Water when the current contract runs out.	Interested Copermittees	8/20/2020
8	Stephanie Gaines (County of San Diego) to work offline with Copermittees regarding development of a stormwater workshop for inspectors and Copermittees, focused on stormwater inspection of agriculture facilities.	Stephanie Gaines (County of San Diego)	8/20/2020
9	Any Copermittee interested in leading a virtual event for QISP training to contact Christine Tolchin (County of San Diego).	Interested Copermittees	8/20/2020
10	Stephanie Gaines (County of San Diego) to email the Trash Amendments Track 2 Guidance Document to Copermittees.	Stephanie Gaines (County of San Diego)	When released by CASQA
11	Stephanie Gaines (County of San Diego) to keep Copermittees updated on progress of request for reporting relief from the Regional Board.	Stephanie Gaines (County of San Diego)	Ongoing
12	Copermittees wanting to pick up promotional items are to contact Chelsea McGimpsey (County of San Diego) to arrange a date and time for pickup.	Interested Copermittees	Ongoing
