

SAN LUIS REY WATERSHED MANAGEMENT AREA
WATER QUALITY IMPROVEMENT PLAN WORKGROUP

MEETING SUMMARY

CITY OF VISTA CIVIC CENTER, DELPY ROOM
200 CIVIC CENTER (1ST FLOOR, ENGINEERING DEPARTMENT)
WEDNESDAY, SEPTEMBER 19, 2018, 9:00-11:00 A.M.

Meeting Start 09:12

MEETING ATTENDEES

NAMES	ORGANIZATION	VOTING MEMBER
Brian Nemerow	City of Vista	Yes
Adam Shapiro	City of Oceanside	Yes
Neil Searing	County of San Diego	Yes
Stephanie Gaines (telephone)	County of San Diego	No
Kyle Cook	Camp Pendleton	No
Sheri Dister	Weston Solutions	No
Amy Margolis	Weston Solutions	No

AGENDA ITEM 3: OPPORTUNITY FOR MEMBERS OF THE PUBLIC TO SPEAK ON ITEMS NOT ON THE AGENDA (LIMIT TO 3 MINUTES)

Kyle (Camp Pendleton) gave a brief update on a staffing change at Camp Pendleton. In addition, Camp Pendleton is working on contracting for TMDL compliance receiving water monitoring. This work is scheduled to start in October; additional updates will be provided at a later date.

AGENDA ITEM 4: APPROVAL OF MEETING SUMMARIES – VOTING ITEM

The August meeting summary was approved. The group briefly discussed two items related to the summary:

- Neil (County of San Diego) will send out line of evidence information for bifenthrin (this was an action item from the last meeting).
- Oceanside's 2nd round of analytical monitoring at highest priority outfalls has been completed.

DESCRIPTION	APPROVAL OF SLR MEETING SUMMARY (August 15, 2018)
MOTION	Motion to approve SLR Meeting Summary from August 15, 2018
MOTIONED BY	Motioned by Adam Shapiro
SECONDED BY	Seconded by Brian Nemerow
CALL FOR DISCUSSION	None
CALL TO VOTE	Motion Passed [3 Yes, 0 No, 0 Abstentions]

AGENDA ITEM 5: WATER QUALITY MONITORING UPDATE

Neil provided an update of monitoring activities in the watershed.

- No dry weather exceedances were observed this year at OC-100. See Table 1 for additional information.

Table 1. Bacterial Exceedances at San Luis Rey River Sampling Locations

Monitoring Program	Station	August 2, 2018	August 9, 2018	August 16, 2018	August 23, 2018	August 30, 2018
TMDL	OC-100	None	None	None	None	None
Lower River Goal	SLR25	Enterococcus, fecal coliform, E. coli	NS	NS	NS	NS
Lower River Goal	Benet Bridge	NA	NA	NA	NA	NA

NS – Not sampled.

NA = Not Applicable. Site had no flow.

- SMC sampling has been completed.
- Bight sampling was completed 8/22.
 - Sheri (Weston Solutions) noted that results will be summarized in next year’s WQIP Annual Report, but a summary of activities will be included in this year’s report.
- The County is still performing visual observations and monitoring for the low flow study.
- Highest priority outfall monitoring is complete for all jurisdictions; the data is being compiled and will be sent to Weston soon.
- HF183 wet weather study – Samples were not able to be collected last year due to low rainfall amounts, but the County is planning on monitoring up to three storms during 2018-19. This study is intended to be reported as a special study.
- Brian (City of Vista) noted that all visual observations and dry weather analytical monitoring are complete for the City of Vista. Visual observation data will be sent to Weston soon, and lab results will follow when received.
- Adam (City of Oceanside) provided an update that all dry weather field screening and highest priority outfall monitoring is complete. The City is meeting with D-Max next week to discuss jurisdictional strategies and highlights, which will include cleanup efforts. The City just completed two cleanup events totaling about 1500 lbs. of trash at SLR. Photos will be provided for the WQIP Annual Report. Another cleanup of three sites at Buena Vista Creek totaled over 4000 lbs. of trash.

AGENDA ITEM 6: WORKGROUP BUDGET

Two items will need a vote –

- A. Fiscal year 2017-18 budget consolidation and
- B. Fiscal year 2018-19 budget proposals.

The group will need to vote on expenditures and proposed carryover. The vote will be put out by email.

AGENDA ITEM 7: WQIP ANNUAL REPORT

Before discussing the agenda items, the group briefly discussed the new 303d listing for bifenthrin. This will be addressed in the WQIP Annual Report by identifying the new listing as a regulatory change in the adaptive management section, and adding it to the list of updates to be made next year when the WQIP and MAP are updated. Monitoring for bifenthrin in MS4 samples will begin during 2019-2020.

- A. SMC Regional Monitoring Program Draft Bioassessment Results - Sheri provided an overview of the SMC Program background and draft bioassessment results that will be included in the WQIP Annual Report.
 - Weston will look more closely at grain size (related to the quantity of fine-grained material for sediment toxicity) and where nutrient/bifenthrin detections in Upper SLR site may be coming from.
 - The group discussed the proposed biological objectives.
 - TMDL results will be presented at next month's meeting.
- B. Jurisdictional Data Submittals
 - Data have been collected and are being compiled for submittal to Weston.
 - Sheri reviewed the schedule for the annual report 1st and 2nd drafts.
 - The County's continuous flow data will likely not be ready for the 1st draft (this will affect the timing of the volume-based progress to goals). Isotope study work may also not be ready until the 2nd draft, although the approach will be summarized in the 1st draft.

AGENDA ITEM 8: JURISDICTIONAL UPDATE

Jurisdictional updates were provided under Agenda Item 5. Additional information is summarized below.

City of Oceanside:

- Need to submit dry weather data/deliverables to Weston. Photos will also be provided.
- RFP proposals to develop a technical plan for trash order implementation/planning studies are being scored.

County of San Diego:

- Need to submit dry weather data to Weston. Highlights, including rain barrels, were briefly discussed.
- Sheri mentioned the Stormwater Capture feasibility study, and asked Stephanie (County of San Diego) if it will be attached to the WQIP Annual Report. Stephanie responded that the study will

be finalized outside of the current fiscal year, but this year's report can outline how the study will be used (to make decisions on priorities, etc.). Results will be reported next year.

City of Vista:

- Vista has met with D-Max and sent some jurisdictional content for the report.
- Dry weather data compilation needs to be finished and submitted to Weston.

AGENDA ITEM 9: OTHER ITEMS

No other items given for discussion.

AGENDA ITEM 10: NEXT WORKGROUP MEETING

The next recurring meeting will be on Wednesday October 17th, 2018 from 9:00-11:00 AM at the City of Vista.

- Note that this date falls during the annual CASQA conference. The group will be rescheduling the meeting.

Meeting end 10:42
