

**SAN LUIS REY WATERSHED MANAGEMENT AREA**  
**WATER QUALITY IMPROVEMENT PLAN WORKGROUP**

**DRAFT MEETING SUMMARY**

**CITY OF VISTA CIVIC CENTER, ADOBE ROOM**  
**200 CIVIC CENTER (1<sup>ST</sup> FLOOR, ENGINEERING DEPARTMENT)**  
**WEDNESDAY, JUNE 29, 2016 10:00-12:00**

---

**MEETING ATTENDEES (\*VOTING MEMBERS)**

- Cheryl Filar\*, City of Vista
- Cynthia Mallett\*, City of Oceanside
- Ruth de la Rosa\*, County of San Diego
- Antonia Estevez-Olea, Larry Walker Associates

---

**AGENDA ITEM 3: OPPORTUNITY FOR THE PUBLIC TO SPEAK ON ITEMS NOT ON THE AGENDA (LIMIT TO 3 MUNITES)**

No members of the public were present.

---

**AGENDA ITEM 4: APPROVAL OF MEETING SUMMARIES FROM MAY 18, 2016 (VOTING ITEM)**

The May 18, 2016 meeting summary was approved with an edit to item 4. Cynthia moved to approve the agenda, seconded by Cheryl (Vote: 3-0, in favor).

**Action Item(s):**

- Ruth will confirm footnotes 3, 4, and 5 of the Work Plan to differentiate between the monitoring requirements for Bacteria TMDL and SLR WQIP goals. These changes will be reviewed at the next meeting.

---

**AGENDA ITEM 5: MONITORING UPDATES (DISCUSSION)**

- SLR WQIP Bacteria TMDL and WQIP Lower River monitoring results from May 2016 are shown in Table 1.

**Table 1. Bacterial exceedances at San Luis Rey Sampling Stations**

Event	San Luis Rey River Outlet - Oceanside (OC-100) <sup>1</sup>	Benet Bridge <sup>2</sup>	Camino Del Rey Bridge over San Luis Rey River (SLR25) <sup>2</sup>
<b>Dry Weather ( May 1- September 30)</b>			
5/4/2016	No Exceedances	No Flow	Enterococcus
5/12/2016	No Exceedances	No Flow	NA
5/19/2016	No Exceedances	No Flow	NA
5/25/2016	No Exceedances	No Flow	NA
5/26/2016	No Exceedances	No Flow	NA

<sup>1</sup> Monitoring at this station is required by the Bacteria TMDL.

<sup>2</sup> Monitoring at this station is part of the Lower SLR WQIP goals and is not required by the Bacteria TMDL.

NA – Monitoring is only required once a month throughout the year

No Flow - No flow at the long-term monitoring station, therefore no samples were taken.

- Storm Water Monitoring Coalition (SMC) - The site selection is in progress. One reference condition site and three random sites per stratum are going to be selected. The Workgroup requested information on how sites are selected.
- Joanna Wisniewska sent an email to the Regional Monitoring Workgroup (RMW) with presentations and templates shared at the June 2, 2016 meeting. An overview of the items are discussed below:
  - RMW developed the Dry Weather MS4 Outfall and IDDE Data Sharing Template that will be finalized in the next couple of weeks.
  - RMW developed a list of suggested water quality benchmark values. Actual benchmark values selected for various constituents by each WMA will depend on the water bodies and beneficial uses under consideration, existing TMDLs and special study requirements. However, the group has agreed to use, in most cases, the same benchmarks for both dry and wet weather conditions and use values provided in the Basin Plan and CTR when available. For nutrients, the group agreed to use the EPA Ambient Water Quality Criteria for Ammonia and 10:1 ratio for Total N (as it relates to total P concentration as described in the Basin Plan).
  - A table comparing the Regional Monitoring and Assessment Report (RMAR) and Report of Waste Discharge (ROWD) permit requirements were presented at the meeting.

Action Item(s):

- Request a presentation on the SMC SLR Watershed stratum site selection process.
- The Workgroup should review the data sharing template and provide comments at the next Workgroup meeting.

---

## AGENDA ITEM 6: MONTHLY REPORT TEMPLATE – UPDATE

The Workgroup looked at the monthly bacteria monitoring reports and made the following edits for clarity between monitoring for the required TMDL versus lower river WQIP goals:

- In the first paragraph, modify the first sentence to state the following: “This event summary provides a record of dry and wet weather compliance monitoring activities for the San Luis Rey River Watershed Bacteria TMDL Monitoring Program and WQIP Lower River Goals for the month of May 2016.”
- In the first paragraph, also include the sampling frequencies for the Bacteria TMDL and WQIP Lower River Goals.

Action Item(s):

- Ruth will request Joanna Wisniewska to make the changes to the Weston Monthly Monitoring Report.

---

## AGENDA ITEM 7: JURISDICTIONAL UPDATE

- The City of Oceanside applied for the Integrated Regional Water Management (IRWM) Disadvantage Communities Grant geared toward addressing the homeless population and disadvantaged communities. Award decision is pending.
- The City of Oceanside started conducting residential inspections in FY15-16. Inspections are “conducted” when meter reader staff see runoff from residential properties (as part of water conservation efforts). If runoff is observed, code enforcement sends letters to residents and/or land owners.
- The City of Vista will initiate residential inspections in FY16-17.
- The City of Vista is investigating the feasibility of track 1 and track 2 to comply with the trash amendments. A request for qualifications (RFQ) may be issued to assist with this task. The City of Oceanside and Vista will share ideas to assess trash priority land uses.
- The City of Vista initiated the Flow special study. One wet and two dry weather events are going to be performed.
- The County will meet with consultants to discuss the outline of the annual report and revise reporting schedule.
- The Workgroup discussed jurisdictions sharing residential inspections programs and steps taken to comply with the trash requirements. Ruth suggested that sharing could be done at the Program Planning Subcommittee (PPS) meetings and will make the suggestion to Stephanie Gaines.

Action Item(s):

- Ruth will suggest a jurisdictional sharing item at future PPS meetings.
- Ruth will revise the annual reporting schedule.

---

#### AGENDA ITEM 8: CREDIT CONFIRMATION TOWARD FY2016-2017 INVOICES

- The City of Vista paid their FY15-16 invoice before the revised invoice, which removed the 15% contingency, was sent out. Ruth confirmed that the City of Vista will be credited \$1,604 in next fiscal year's invoice.
- The City of Oceanside submitted payment for FY15-16 invoices in May 2016.

---

#### AGENDA ITEM 9, CITY OF VISTA DEVELOPMENT PLANNING PROGRAM STRATEGY DP 5 – DISCUSSION

Jonathan Nottage noted that in the WQIP the City of Vista retained strategy DP5 (Development Planning Program Strategies), while the City of Oceanside and County of San Diego did not. The DP5 strategy requires the development and implementation of a Watershed Management Area Analysis (WMAA) for watershed-specific structural BMPs. The SLR Workgroup decided that further discussion is needed at the next meeting.

---

#### AGENDA ITEM 10, REGIONAL PROGRAM PLANNING SUBCOMMITTEE (PPS) MEETING UPDATES – CYNTHIA MALLET

Cynthia Mallett attended the May 26, 2016 PPS meeting provided the following updates:

- The Final WQIP annual reporting framework has been finalized and submitted to the County.
- The County of San Diego is finalizing the Trash Pilot Study.
- The County has not yet received a response from State Board regarding their Proposition 1 grant application.
- CASQA legislative updates are discussed in their Newsflash and will be emailed to the Copermittees.
- The next PPS meeting is on July 21, 2016 from 1:30 pm to 3:30 pm.

---

#### AGENDA ITEM 11, OTHER ITEMS

- The County will discuss the new platform for the Clean Water Project Website at the next PPS meeting. The Workgroup should take a look at the existing website and provide comments/suggestions for improvements at the next meeting.
- The San Luis Rey Watershed Council (SLRWC) was awarded a grant from the Department of Fish and Wildlife for rainwater capture at urban and rural areas, sustainable landscapes, and water efficient irrigation systems for agriculture.

---

AGENDA ITEM 12, NEXT RECURRING WORKGROUP MEETING

The next meeting is scheduled for July 20, 2016. Send agenda items to Ruth and Antonia by Wednesday, July 13<sup>th</sup>.
